Health Levy			
TOTALS			

Classification Treatment:

By operator, specify class, driving record, rate group, etc., and the % amount of any applicable discounts or surcharges.

Current:

Proposed:

Notes:

- If the company's territorial structure is more refined than shown above, enter premiums based on an appropriately weighted average of the sub-territory premiums within each statistical territory, and identify sub-territories under the description of Classification Treatment.
- If the operator profile is not typical of the company's normal business, make assumptions necessary to allow completion of the profile and declare such assumptions under the description of Classification Treatment (for example, non-payment of premiums for a non-standard writer).
- If the coverage limit or deductible is not normally offered, declare this fact under the description of Classification Treatment and complete the profile by applying an appropriate differential as published in the company's rate manual.
